Which is our outlook for the 2014-2017 period?

For the 2014-2017 period (and coinciding with the EU support) the network has 6 primary focuses and objectives to be developed through different projects and activities:

1. Strengthening the dance sector
2. Professional training
3. Art: curating, presenting, coproducing and promoting exchanges.
4. Audience development
5. Dancehouses
6. Society

EDN as an EU funded project

EDN has the support of the EU for the development of activities from August 2014 until August 2017 (Programme: Creative Europe; Sub-programme: Culture; Action: Support to European Networks).

The European Commission offers co-financing in order to implement activities aiming at strengthening the capacity of the cultural and creative sectors to operate trans-nationally and internationally and to adapt to change. The EU grant for networks helps us to develop our activities.

Financial guidelines with information about procedures are distributed to the members that attend and organize activities within the project. Communication guidelines include instructions about the use of EU logo and the network activities diffusion.

Year 2 of project – [September 2015-August 2016]

Objective: promote the cooperation between members in order to start new projects and new collaborations.

Actions: focus on developing scientific studies, Outreach visits to Chile and Middle East, Carte Blanche for members' staffs and political actions, Ateliers (focused on management skills, artistic identity, creation and dissemination, relevance of dance...), Conference (focused on the relevance for dance in society), visit to the Internationale Tanzmesse nrw Düsseldorf...

Year 3 of project – [September 2016-August 2017]

Objective: Achieve the sustainability of the network as such as to share the results of the projects carried on the precedent years. A specific evaluation and a reflection on the activities in the future will be needed.

EDN as an umbrella for cooperation projects

The EDN members cooperate as partners in different European funded projects, also with non-EDN members. Some of the projects developed until now have been IDEE (Initiatives in Dance through European exchange), Chin-A-Moves, Dance Dialogues Africa, modul-dance, Léim, EVDH (European Video Dance Heritage), Kore-A-Moves and Communicating Dance.

The outlook for the future is to become an umbrella for cooperation projects covering key aspects of the sustainability and relevance of dance that come out from the strategic lines defined by the working groups discussions. We are constantly developing projects between 2 and 4 years length in order to apply to different EU funds.

EDN as a model of best practice

Dancehouses operate by continuously supporting artists and promoting the existence of dance as a vital contemporary art. That's our model and acts as an inspiration for many initiatives. The dancehouse model is the most sustainable, contemporary and efficient way to promote the development of dance artists, dance infrastructures and dance as an art form. Our association takes advantage of this by drawing on the experience and strengths of each network partner. EDN has extended its reach to other structures to promote the dancehouse model at national, pan-European level and beyond.
